

## **3D Model Competition on Physiotherapy Models**

**SOP:** 3D Model Competition on Physiotherapy Models

**Name of the Institution:** Lifeline Institute of Physiotherapy,  
Pandharpur

### **Event Details**

- **Name of the Event:** 3D Model Competition on Physiotherapy Models
- **Theme:** Physiotherapy Models (3D)
- **Date:** 5th September 2025
- **Venue:** Lifeline Institute of Physiotherapy, Pandharpur
- **Number of Participants:** 31

### **Organizing Authority**

- **Principal:** Dr. Ashwini Pardeshi
- **Organizers:**
- Dr. Dhanraj Navatre

- Dr. Ashly Rose George
- Dr. Esha Kendre

### **Objectives of the Event**

- To enhance conceptual understanding of physiotherapy through 3D models.
- To promote innovative thinking and creativity among students.
- To encourage hands-on learning and application of theoretical knowledge.
- To develop presentation and explanation skills related to physiotherapy concepts.

### **Target Participants**

- Undergraduate Physiotherapy Students
- Interns of Lifeline Institute of Physiotherapy

### **Roles and Responsibilities**

#### **Principal**

- Approval and overall supervision of the event.
- Providing guidance and institutional support.

## **Organizers**

- Planning and execution of the competition.
- Finalization of rules, judging criteria, and schedule.
- Coordination with students, faculty, and volunteers.
- Ensuring smooth, fair, and transparent conduct.

## **Volunteers**

- Registration and attendance maintenance.
- Allotment of display space for 3D models.
- Assisting during evaluation and documentation.
- Maintaining discipline and cleanliness.

## **Pre-Event Planning**

- Circulation of notice and registration of participants.
- Allocation of topics related to physiotherapy models (anatomy, biomechanics, rehabilitation, equipment, etc.).
- Arrangement of tables, display boards, and power supply if required.
- Briefing participants about rules and evaluation criteria.

## **Event Rules & Guidelines**

- 3D models must be related to physiotherapy concepts.
- Models may be prepared using eco-friendly and safe materials.
- Each participant/team must explain their model to the judges.
- Time limit for explanation must be strictly followed.
- Judges' decision will be final.

## **Event Flow**

1. Registration of participants
2. Allotment of display space
3. Display and explanation of 3D models
4. Evaluation by judges
5. Declaration of results
6. Vote of thanks

## **Safety & Discipline**

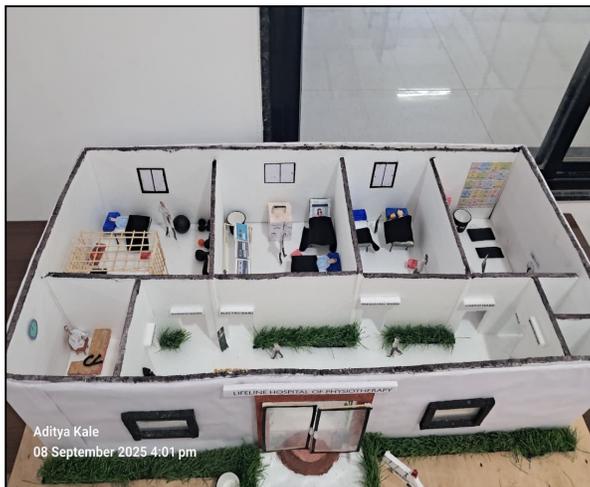

- Use of sharp or hazardous materials is strictly prohibited.
- Models should be handled carefully to avoid damage or injury.
- Participants must follow instructions given by organizers and volunteers.

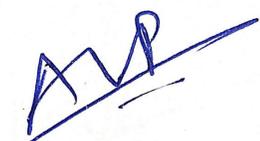

## Documentation

- Attendance sheet
- Photographs of displayed models
- Evaluation sheets and result records
- Event report submission

## Conclusion

The 3D Model Competition on Physiotherapy Models was conducted successfully as per the SOP at Lifeline Institute of Physiotherapy, Pandharpur, fostering innovation, practical learning, and academic engagement among students.
